General Manager's Letter

What an exciting time for WRUW! We've been approved to increase our power to 15000 watts-- which means a stronger, clearer signal in our current listening area and a brand new choice on the FM dial for Cleveland suburbanites. We had our first ever (very successful) Industrial/Goth Concert. We had another fabulous "Jazz Night Out." And we held a goodbye party for Annie. Also, numerous programs on our station received critical acclaim in the Cleveland media.

WRUW now braces itself for a new era of broadcasting. Thirty-one years after starting as a 10 watt mono station, we prepare ourselves to fully serve the entire Cleveland Metropolitan area.

We air programs that no other station would dare broadcast. Whether it's polka, or non-traditional "Classical" music, or punk, or hip-hop, or ska, or electronic, or folk, or comedy, or rock, or public affairs on topical issues-- we've got it. 91 WILL challenge you. This ain't background music. It will push you with creativity, it will spit out drumbeats that make your head swirl. It will scream with anguished vocals that sound as familiar as that recurring nightmare you've been having. It will soothe you like a smooth scoop of vanilla ice cream sliding down your throat on a hot and sticky summer's day. Then just as you melt into the peaceful bliss of tranquility, a thousand pins

It will scream with anguished vocals that sound as familiar as that recurring nightmare you've been having. It will soothe you like a smooth scoop of vanilla ice cream sliding down your throat on a hot and sticky summer's day. Then just as you melt into the peaceful bliss of tranquility, a thousand pins pierce your scalp and send shocks to your brain. You've been hit with the pain of brainfreeze as blood-thirsty guitars cry out in agony.

No, WRUW is not for everyone. It is for those select few who search for something DIFFERENT on the radio. Something that not only ignores the status quo, but burns it in a ritualistic celebration of broadcasting freedom.

Find your genre. Pick your show. Then listen. Then take the bold step to find another show. And then another. And pretty soon the "status quo" that you held onto like a young child does to her mother's hand, becomes nauseating. It's time to challenge authority, to question the Stereo Food that you are spoon fed. It's time to develop your own likes and tastes. It's time to sample WRUW.
